FICConstM. Who handed his role as Director of Membership in January to Roy Blamey. MICConstM. Mike wished everyone a good meeting.

Cliff Brown said the new web site was looking very good and that a lot of work had gone into it, the web site is our main way to attract new members. He asked members to send in articles that can go in the View Point magazine. With the training set up on the web site by David Jones members can increase their knowledge, he thanked Dianna Charlton, John Sinfield, Roy Blamey and the committee for their support. Handing over to Mark Rea today and hoped the Institute would go into the future and grow.

Dianna Charlton said the web meeting with Nathan Simpson showed how professional it was looking, we need members to send in articles for View Point, thanked the committee for their support.

John Sinfield outlined the need to chase up the members who owe their fees, and to link the Health and safety with David Jones which will bring in income. He said it was a need to set up an action committee to take the Institute into the next decade. Roy Blamey had sent invitations to 500 companies who have hits on our web site. He is also chasing those that owe their fees. It was not a pleasant job to have to expel members who have failed to pay their fees on time. Which would mean they would not be able to use our letters after their name, it would be an offence under the rules.

Cliff thanked everyone and said he had some good news

Cliff said he was pleased to present a fellowship award to someone who has been a great help to the Institute and is a deserving member to Roy Blamey.
